"NANTAHOLA"

Talc and Marble,

104 JOHN STREET,

NEW YORK.

New York, Feb 10<sup>th</sup> 1891.

Director of the U.S. Mint  
Phil<sup>a</sup> Pa

Dear Sir

I have lately come into possession of a \$20<sup>00</sup> gold piece issued by the U.S. Mint at San Francisco Cal. in 1853.

The design is the same as the octagonal \$50<sup>00</sup> piece, issued from the same mint, except that my piece is round.

Can you give me any information as to when the mint was established in S.F.? How long these pieces were minted & about how many were issued? The assay value &c? I will say that even under the glass my piece is almost perfect & any suggestion you may make for its preservation would be thankfully rec<sup>d</sup>. I would like to show the piece to friends & write presuming you know the best manner of accomplishing the end, so that both obverse & reverse can be seen without handling it.

Yours Resp<sup>ly</sup>  
A. Rickard
